

Kick-start your future with
real-world experience

Summer Intern Programme

“ There was trust in us
to step up and be
part of the process,
we were doing
real work that
mattered.

**At Leighs, we build more than
buildings — we build careers.**

Our Summer Intern Programme helps you grow your confidence, contribute to real projects, and connect with experienced professionals. You'll be supported with mentoring, be part of the team, and encouraged to make the most of your summer.

Whether on site or in the office, you'll gain skills and insights that could shape your career or even lead to our Future Leaders Programme.

**Join the Leighs Summer Intern
Programme and get hands-on,
paid experience in construction,
quantity surveying, design
management, planning, and
more.**

LEIGHS Summer Intern Programme

2025
Intake

What you need to know

Who can apply?

Students who are eligible to work in New Zealand over the summer and have completed at least one year of study in:

- Construction Management
- Architecture / Design Management
- Quantity Surveying or Estimating
- Engineering (Civil, Structural, Building Services)
- Or related disciplines

Where are interns placed?

In 2025, we are offering Summer Intern placements in Christchurch. We place interns in teams that have the right structure to support their area of study and career goals.

When does it run?

From late November to mid-February, around study dates with a two-week break over Christmas / New Year.

What's included?

- Paid fixed-term contract
- Assigned supervisor
- Full induction and onboarding

Will I get a job after?

Strong performers may be considered for our Future Leaders Programme or graduate roles

What does success look like?

It's more than just time on site. A successful internship with Leighs Construction means:

- Contributing to meaningful work
- Growing your skills and confidence
- Building connections for the future
